

Free study space

TEGO HOME

TEGO HOME is a Shimane University volunteer group. We provide a place to study and communicate for middle and high school students. This is entirely free and anyone can come.

Under this COVID19 situation, we have opened online study space by the Zoom app instead of face-to-face support.

Anyone can come. You are always welcome!! Please feel free to join!!

You can study your textbook or do your homework, as you prefer. And when you have a question you can ask volunteers at anytime. We're not professional teachers, but we can think together and try to find answer with you!! We also have a mini-game in break time!!

If you don't want to show your face, you can turn your camera and microphone off and just watch.

If you have any questions, please feel free to ask by e-mail or telephone.
